CIbSE 2022

XXV Ibero-American Conference on Software Engineering

Córdoba, Argentine Republic - June 13 to June 17, 2022 - Face-to-face mode

Important dates

Main Track
Abstract submission: February 7, 2022
Paper submission: February 14, 2022

Doctoral Symposium and Journal First
Paper submission: March 8, 2022

CIbSE is the leading Software Engineering research forum in Latin America. Its main objective is to promote high-quality scientific research in Ibero-American countries, supporting researchers from this community in the publication and discussion of their work. CIbSE also encourages collaboration between academics, students and the software industry.

Conference tracks:

Main Track on Software Engineering (including keynotes), Journal First, Doctoral Symposium, Advanced Ibero-American School on Software Engineering (EIbAIS), Industry Talks
